EXPERIENCE

B&H Photo Video

Manhattan, NY

Website Project Manager

July 2022–Present

- Manage the queue for all incoming bugs. Identifying the root causes of issues, devising solutions for various development teams, and overseeing the progress of tickets from development and quality assurance stages until the fixes are successfully deployed into production.
- Liaison to all non-technical departments for site enhancement requests. Gathering requirements, informing teams about technical feasibility, and synchronizing with developers to implement changes, overseeing them until production.
- Maintain on demand areas of the site that cannot wait for migration from dev teams, such as promotional banners, landing pages, permalinks etc.

Jewish Content Network/Yidpod

Hybrid (Online/Brooklyn, NY)

Software Developer Intern

February 2022–June 2022

- Maintained and improved the front end of YidPod the app.
- Improved the user experience of the front page of the app by making it clearer and easier to use.
- Helped fix bugs that users reported.

HASC Center

Brooklyn, NY

Senior Weekend Direct Support Professional

November 2019–February 2022

- Lead of a team of three to manage a home of individuals with special needs on most weekends.
- Assist the individuals with their activities of daily living, while helping them work toward their goals.
- Promoted to Senior with responsibility of training new staff to develop a familiarity with the individuals of the home, and train substitute staffing for the home.
